Which aspects of the course were most helpful? Why?

Comments

The content was very interesting and easy to digest. The course was formatted where the work was achievable and contributing to my learning.

Most helpful is the professors willingness to provide help understanding topics in and outside of class. This is a big help in preparing for exams.

lectures

The in-class lectures helped the best

Which aspects of the course would you change? How and Why?

Comments

The books should be updated to better reflect the course and content. They are very old and not well integrated with the topics covered in class.

This class should be offered online as everything can be done outside of the class room.

do away with the book club. they provided no learning material for the main class, they were not covered on the exam. it seamed like busy work every week.

Perhaps uploading the class presentations before class, so that we can follow along during the lectures.

Which aspects of the instructor Munib Inam were most helpful? Why?

Comments

Both instructors were thorough and attempted to create thought provoking questions and conversations. They were also both very helpful and open to being available for us.

He explains things fully and does not move on from a topic until he feels the class understands.

n/a

Willingness to explain things in-depth and answer classes

Which aspects of the instructor Munib Inam would you change? How and Why?

Comments

Both teachers were not quite used to doing "crowd work" to get the class engaged and excited. It took a while to warm up to them.

He moves a little slow. Can maybe move a little faster through material.
